Digi Learning Portal , February 2023 - June 2023

- The use of e-Learning technology in higher education institutions is no longer an option but has become a necessity and the wrath of COVID-19 has made it to the top of the priority list. In an era known as the society of technology and knowledge, where lifelong learning is a way of life, it is important that educational institutions have as a priority the goal of finding effective ways of providing new learning opportunities according to their environment, student characteristics, teacher training, economic crisis and advancing technology in an effort to make learning more efficient, equitable and innovative in higher education. Normally it has been practised in higher education and corporate and occupational training contexts as a part of lifelong learning. However, with the emergence of new open and mobile platforms and web apps, a range of possibilities has opened to facilitate teaching and learning processes in fully on- site or blended environments. As a result, online le

MY portfolio , June 2023 - July 2023

- My portfolio is a website built with React.js , utilizing React Router v6 to enable easy access to multiple pages. It was designed and created entirely by myself, showcasing my skills and projects. The website is responsive and visually appealing, providing a user-friendly experience.
